Evidence for Action
Approaches to Advance Gender Equity from Around the Globe
Grantee Cohort Convening
Thursday, March 17, 2022
2am Hawaii / 5am Pacific / 8am Eastern / 12pm Ivory Coast / 1pm Central European / 2pm Israel / 8pm Singapore

AGENDA

Convening Objectives:
- *Bring together gender equity grantees, E4A staff, and RWJF staff to network, share learning, and strengthen work to advance gender equity*
- *Explore how individual grantee projects connect to and inform systems level change*
- *Learn frameworks and strategies for adapting interventions to different contexts to inform and inspire continued E4A project work*
- *Share lessons learned from implementation, logistical, or COVID-related project challenges and how to avoid these pitfalls in the future*

8:00am ET   **Welcome & Introductions**
- Context setting: locate yourself on a map and share what food you would recommend someone definitely try if they were visiting the place (country, city, etc.) you currently live (or where you are from or where your research is happening)

8:20am ET   **Debrief / Application of content from asynchronous sessions**
- **The Power of Evidence Podcast** (to be listened to beforehand)
  - What stood out to you about the podcast episode?
  - In what ways do you see your project informing *systems-level change*?
  - In your work, do you ever encounter situations in which the value of a program or strategy is judged by its *intentions* rather than its *outcomes*? How does this impact decision-making?
- **Adapting Interventions to advance gender and health equity: a review of frameworks and strategies**
  - Discussion
    - What stood out to you about Dr. Escoffery's presentation?
    - What do you find challenging about adaptation/implementation?
    - In what ways has your adaptation or implementation framework guided your project? (Or in what ways do you expect that it will?)
  - Interactive activity

Evidence for Action
Investigator-Initiated Research to Build a Culture of Health

9:20am ET   **Implementation, logistical, or COVID-related challenges and resolutions**
- Each grantee project shares one or two generalizable tips or lessons learned from the field (e.g., dealing with changing pandemic policies, political events, language barriers, etc.)

9:45am ET   **Closing & next steps**
